Excellent Concept Demonstration

There are different concepts for different modules of the IELTS Tests, and each concept is demonstrated with an example. They also make you apply the concept in the class, so you understand it better. This helped me improve.

Constructive Feedback

The mock tests and practice tests along with the assessment and feedback sessions made me realise my mistakes and correct them. My personal trainer gave me ideas on how to rectify certain mistakes and that helped alot.

Easy-to-use Techniques

Though my language was good, I had difficulty in finding ideas for the various topics in the writing and speaking section. My trainer thought me a few techniques on how to generate ideas and as IELTS is about the language as well as the clarity of ideas, I scored an 8.5.
